Lead Entity: Saint Vincent Health Center, Erie Pennsylvania

Saint Vincent is providing project coordination and using facilitating this project in the region through the establishment of a Telehealth Advisory Council with representation of each of the participating entities in the Northeast HealthNet (NEHN). The advisory council meets quarterly to discuss project status, set goals for the upcoming quarter, establishes priorities and as a general forum to keep participating entities, engaged and involved in the development of the NEHN Network.

2. Health care facilities included in the network.

As documented in the prior quarter, there have been a number of changes in the compliment of participating sites since the last report. These changes have largely been the result of relocation or change in affiliation. The table below has been updated to reflect the composition of the NEHN as of October 15, 2009

3. Network Narrative:

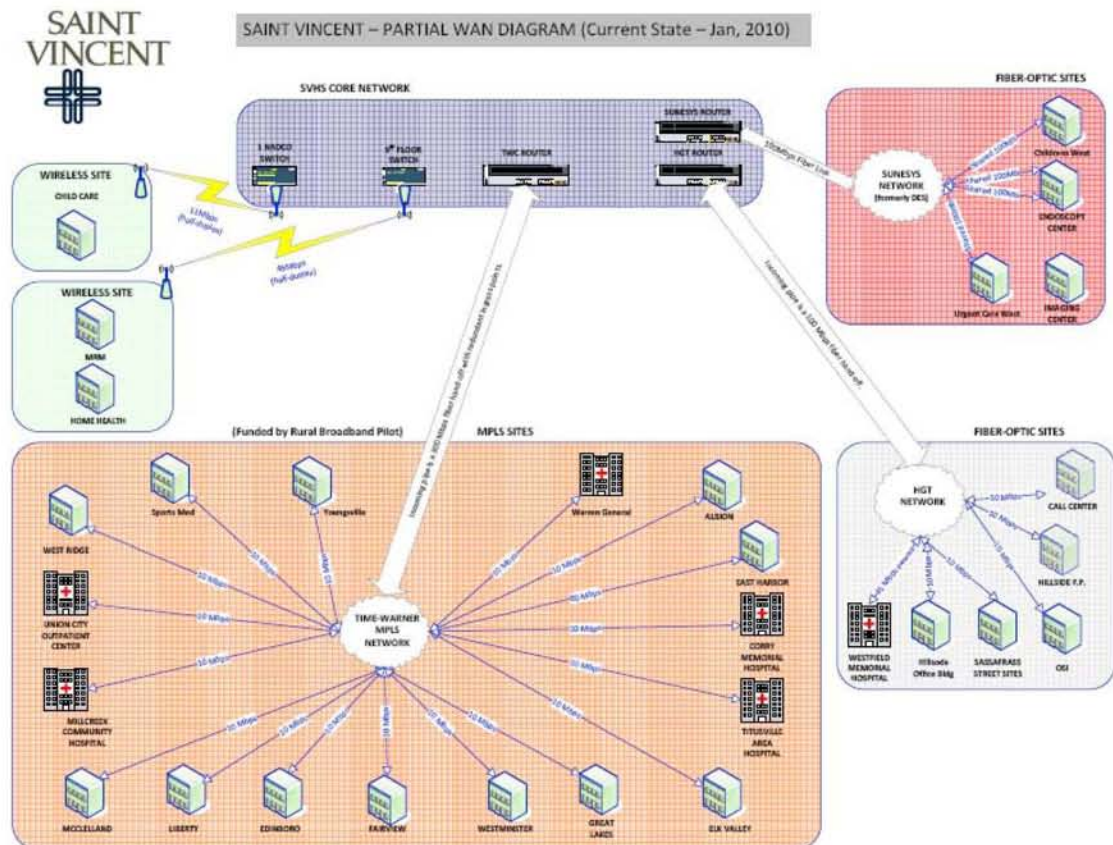

This project completed its competitive bidding process and awarded bids to two vendors in March 2009. The selected vendors included a large telecommunications provider to provide the connectivity between the NEHN Sites and Saint Vincent Health Center and a bid was also awarded on a self-provisioning basis to Saint Vincent Health Center-Information Technology Networking Services. (SVHC-ITNS) SVHC-ITNS will provide the internal network infrastructure, network monitoring and administration for the NEHN Network.

The NEHN completed it's 466 A package and received funding commitment letters from USAC to begin the initial deployment of broadband to the year 1 and year 2 sites. As of October 15, 2009, NorthEast HealthNet has completed

4. List of Connected Health Care Providers:

1. Saint Vincent Health Center-400MBPS
2. Albion Family Practice-10MBPS
3. Union City OP Center and
4. Union City Family Practice-10MBPS
5. Elk Valley Medical Center-10MBPS
6. Saint Vincent Sports and Restorative Care(Formerly Childrens Healthcare West)-10MBPS
7. East Harbor Primary Care-80MBPS
8. Great Lakes Family Medicine-10MBPS
9. Liberty Family Practice, and 10. Diabetes Resource Center, and 11. Allergy Clinic (Co-Located Sites)-10MBPS

12. McClelland Family Practice-10MBPS
13. West Ridge Family Practice-10MBPS
14. Corry Memorial Hospital-Regional Heart Network Site-10MBPS
15. Millcreek Community Hospital-Regional Heart Network Site-10MBPS
16. Titusville Area Hospital-10MBPS
17. Warren General Hospital-10MBPS
18. Youngsville Clinic of Warren General Hospital-10MBPS
19. Westminister Family Practice-10MBPS
20. Saint Vincent Family Practice at Fairview-10MBPS

5. Non-recurring and recurring costs, where applicable shown both as budgeted and actually incurred for the applicable quarter and funding year to-date.

The NEHN Received funding commitments for 2 Vendors on June 18, 2009.

Please see **Attachments A and B** for detail on the current recurring and non-recurring fees invoiced to committed for the period of 11/1/2009 to 1/8/2010.

6. Describe how costs have been apportioned and the sources of the funds to pay them:

Saint Vincent Health Center, as Lead Entity, will be funding the 15% matching funds from their operating expense budget.

7. Identify any technical or non-technical requirements or procedures necessary for ineligible entities to connect to the participant's network.

At the present time, there are no ineligible entities projected to be part of the NEHN.

8. Provide an update on the project management plan:

The project is presently being lead by Robin Stursa and Michelle Wieczorek as project coordinators designated by the lead entity, Saint Vincent Health Center.

At the present time, the NEHN continues to phase in it's network deployment plan with the assistance of Time Warner Cable and SVHC-ITNS. The remaining sites to be connected as of the last reporting period have gone live per the projected go-live dates. Because of the new management arrangement for the Regional Cancer Center with the University of Pittsburgh Medical, future implementation of that site under the RHCPP is being evaluated for a potential 2010 connection.

9. Provide detail on whether network is or will become self sustaining. Selected participants should provide an explanation of how network is self sustaining.

It is anticipated that this network will be become self-sustaining and be funded by the Saint Vincent Health Center at the termination of the pilot program. The new recurring costs for the Northeast HealthNet are estimated at approximately \$185,000 and will be viewed as a cost of doing-business for the Health Center and become incorporated into the Operating Budget.

Further, it is anticipated that the expanded connectivity in the region will enable the development of new products and services in the Telehealth arena to be realized. As reimbursement for telemedicine modalities improves, so does the viability of advanced telemedicine service offerings and thus the ability to cover the cost of the fiber optic connections to the rural partners in our program.

10. Provide detail on how the supported network has advanced telemedicine benefits:

The NEHN is not yet fully functional and thus has not yet realized advanced telemedicine benefits. The Regional Telemedicine Network (RTN- a newly established non-profit entity of the Saint Vincent Health System) is leading the telemedicine initiatives for Saint Vincent Health System. The NEHN provides the supportive infrastructure including fiberoptic broadband connectivity between the NEHN member organizations. Physician presentations were conducted in October and November 2009 to garner participation in the RTN. Due to the competitive nature of the information contained in the RTN business plan, if requested by the FCC, a confidential copy of the plan will be provided under separate cover.

East Harbor Deployment: The East Harbor deployment is successfully utilizing its broadband connection back to Saint Vincent Health Center for the purposes of EMR connectivity via the Allscripts application. In addition, the facility has implemented PACS imaging modalities in August 2009. The connectivity provides for high-speed transport of images back to the main Radiology Department at Saint Vincent for diagnostic purposes and archival on the main storage infrastructure.

Saint Vincent Medical Group Practices: All SVMG practices connected to the NEHN are now utilizing fiberoptic connectivity to support their Allscripts EMR implementation. Physician adoption of and satisfaction with the EMR was dependent upon a high speed internet connection in order to decrease latency and screen flip time. Post implementation satisfaction with the speed of the application is markedly improved and physicians are now able to take advantage of the advanced EMR decision-support functionality chairside with the patient. Information regarding our physician experience with enhanced connectivity provided under the RHCPP was provided to Dr. Mohit Kaushal of the Federal Communications Commission Healthcare Division.

11. Provide detail on how the supported network has complied with HHS health IT initiatives:

At the present time, the NEHN is not fully functional. However, a number of computer applications selected to be offered over broadband connectivity provided by the NEHN do conform to the interoperability requirements of the CCHIT including the Allscripts EMR application.

12. Explain how the selected participants coordinated in the use of their health care networks with the Department of Health and Human Services (HHS) and, in particular, with its Centers for Disease Control and Prevention (CDC) in instances of national, regional, or local public health emergencies (e.g., pandemics, bioterrorism). In such instances, where feasible, explain how selected participants provided access to their supported networks to HHS, including CDC, and other public health officials.

In July 2002, Saint Vincent Health System signed a memorandum of understanding with the U.S. Department of Health and Human Services to serve as the sponsor of a Pennsylvania DMAT. Saint Vincent has agreed to:

- Recruit, organize, train and maintain a Disaster Medical Assistance Team, designated as “PA-3” in accordance with NDMS guidelines
- Periodically verify that credentials of all team members who are subject to state licensure/certification/registration requirements are current and valid (e.g., physicians, nurses, pharmacists, dietitians, nutritionists, EMTs, paramedics, etc.)
- Accept, maintain and safeguard equipment from federal and other sources for use in training and disaster response
- Appoint an individual from the team to serve as the point of contact for NDMS/DMAT administration and personnel paperwork
- Mobilize the team for state, regional, or local disaster service, as appropriate
- Release the team to PHS for federal disaster service when requested by PHS

Consistent with the sponsorship of the DMAT and in the spirit of ongoing cooperation with the Department of Health and Human Services, NEHN would grant access to the network in the case of any local, regional or national crisis.

In addition to the DMAT participation, Saint Vincent also contributes data to the bioterror-surveillance system managed by the University of Pittsburgh Medical Center which is a cooperative research project managed by the Centers for Disease Control and the Pennsylvania Department of Health. If deemed necessary and appropriate, NEHN would grant access to the network to facilitate exchange of data in the event of a bioterror event or any pandemic or public health crisis.
